Course Nature	<input type="checkbox"/> Specific General Education Courses <input type="checkbox"/> Core Courses <input checked="" type="checkbox"/> General Education Elective Courses <input type="checkbox"/> Basic Courses in General Discipline <input type="checkbox"/> Professional Compulsory Courses <input type="checkbox"/> Professional Elective Courses <input type="checkbox"/> Others		
Course Objectives	<p>The course will be open to all foreign students in different majors, focus on introducing the diversity and rapid development of healthcare service in Shanghai. Shanghai has a reputation for having the best medical facilities in China's mainland, serving the 25 million permanent population and the residents from the other provinces. Even for the expats, there is no worry in finding quality healthcare or transportation when needed. The healthcare system in Shanghai includes public hospitals, private hospitals, international hospitals or clinics for the foreigners (like Parkway and United Family Hospital). The public hospitals are the mainstream of healthcare system, divided into three levels: tertiary, secondly and primary care center, and some of them are combined into partnership. The application of IT, including AI and mobile Health helps the rapid evolving in Shanghai, for example, cloud/digital hospital. The medical cost and mode of payment also differ from each other.</p> <p>In general, it is acceptable for different kind of patients and there must be one pattern suitable for each person.</p>		
Course Description	<p>The course has been implemented five times since the summer of 2017 and set a high value. It is a general education elective course, designed for the international students with different education background. Provide you the opportunity of exploring the truth of Healthcare service in Shanghai.</p> <p>The course contains lectures, on site visiting and final presentation.
