| Course Objectives | <p>The course will be open to all foreign students in different majors, focus on introducing the diversity and rapid development of healthcare service in Shanghai.</p> <p>Shanghai has a reputation for having the best medical facilities in China's mainland, serving the 25 million permanent population and the residents from the other provinces. Even for the expats, there is no worry in finding quality healthcare or transportation when needed. The healthcare system in Shanghai includes public hospitals, private hospitals, international hospitals or clinics for the foreigners (like Parkway and United Family Hospital). The public hospitals are the mainstream of healthcare system, divided into three levels: tertiary, secondly and primary care center, and some of them are combined into partnership. The application of IT, including AI and mobile Health helps the rapid evolving in Shanghai, for example, cloud/digital hospital. The medical cost and mode of payment also differ from each other.</p> <p>In general, it is acceptable for different kind of patients and there must be one pattern suitable for each person.</p> | | |
| Course Description | <p>The course has been implemented three times since the summer of 2017 and set a high value. It is a general education elective course, designed for the international students with different education background. Provide you the opportunity of exploring the truth of Healthcare service in Shanghai.</p> <p>The course contains lectures, video watching¹ and final presentation. Besides the lecturer, we also invite the foreigners living in this city to share</p> | | |

¹ This refers to videos including but not limited to, edited online resources and the ones recorded by the instructor based on her field visits to hospitals/clinics in Shanghai.

| | |
|--|--|
| | <p>their stories and feelings of the healthcare service.</p> <p>Students who involved need to follow the lecturer, observe what happens in Shanghai's healthcare facility, gather the information and draw a parallel.</p> |
|--|--|
