				<input type="checkbox"/> Professional Core Course <input type="checkbox"/> Professional Advanced Course			
Course Type				Non 2+X Major :			
				<input type="checkbox"/> Professional Compulsory Course <input type="checkbox"/> Professional Elective Course			
Course Objectives	The course aims at introducing the culture system of traditional Chinese medicine (TCM), including the basic theory (yin-yang and five elements), basic skills and basic manipulation (acupuncture, massage, cupping et al).						
Course Description	TCM is the unique rare culture of China rooted in the main culture of Chinese nationality. And it is the complete system of alternative medicine in the world with unique theory and excellent clinical curative effects. We will present and discuss Chinese mythology such as “Pan Gu separated heaven and earth” and “Shennong tasted hundreds of grasses”, basic concept of TCM such as Yin-yang, basic skill of TCM such as tongue diagnosis, acupuncture and moxibustion, manipulation, and so on. Students can also intuitively learn and master the Yi-Gin-Ching. The course will provide not only TCM knowledge, but also promote Chinese culture knowledge.						
Course Requirements:							
<ul style="list-style-type: none"> • Have interest in the TCM and Chinese culture. • Have good practice ability. • This course involves attending lectures and visiting on site. 							

- Students are also encouraged to read materials before class and participate in group discussion in class.

Teaching Methods:

- Lecture
- Visiting
- Practice

Course Director's Academic Background:

Instructor's Academic Background:

Prof. Zhang Tiansong received his Ph.D & M.D from Shanghai University of Traditional Chinese Medicine. He has been working at Jing'an District Central Hospital of Fudan University as an attending physician (2001-2003), associate chief physician (2003-2011), chief physician (2011-), and at Shanghai University of Traditional Chinese Medicine as an adjunct associate professor (2005-2012), adjunct professor (2012). Dr. Zhang has published more than 150 academic papers and 20 books in the research fields of TCM, EBM, Statistics, and data mining. He was invited to speak at many conferences and training course in the fields of TCM and EBM.

Members of my teaching team, such as Li Wei, Xu Hongliang, Ren Aoxiang, Pan Baofeng, Zhang Suxian, Luo Chunlei, Yang Kemin, Xu Min, Han Hongyu, Liu Yin, Xu lina, Jiang Sumin, Yu Xiaoyue, Li Zhan, Ni Juxiu, are the skilled pediatric doctors of TCM.

Name	Gender	Professional Title	Department	Responsibility
Zhang Tiansong	Male	Ph.D&M.D., Professor	Shanghai Medical College of Fudan University	Course designer, Lecturer
Han HongYu	Female	M.M.	Shanghai Medical College of Fudan University	Lecturer
Pan Baofeng	Male	M.M., Associate chief physician	Shanghai Medical College of Fudan University	Lecturer
Zhang Suxian	Female	M.M., Attending doctor	Shanghai Medical College of Fudan University	Lecturer

			University	
Ren Aoxiang	Male	M.D.,attending doctor	Shanghai Medical College of Fudan University	Lecturer
Liu Yin	Female	M.M.,attending doctor	Shanghai Medical College of Fudan University	Lecturer
Xu lina	Female	M.M.,attending doctor	Shanghai Medical College of Fudan University	Lecturer
Xu Hongliang	Male	Associate chief physician	Shanghai Medical College of Fudan University	Lecturer
Yu Xiaoyue	Female	M.M.,attending doctor	Shanghai Medical College of Fudan University	Lecturer
Yu Yunhao	Male	M.M.,attending doctor	Shanghai Medical College of Fudan University	Lecturer

Course Schedule :

Class 1 The origin and development of TCM culture (lecture)

--To understand the basics of TCM, to learn some basic terminology of TCM.

Class 2 The cultural history of TCM (visiting)

--To learn about the 5,000-year Chinese medical history (To visit Shanghai Traditional Chinese Medicine Museum).

Class 3 The diagnostic techniques of TCM (lecture and practice)

--To understand the four diagnostic methods of TCM: observation, auscultation and olfaction, interrogation, pulse feeling and palpation.

Class 4 The diagnosis and treatment technology in internal medicine of TCM (clinical observation)

--To understand the treatment mode of TCM: visiting internal medicine of TCM, gynecology of TCM, paediatrics of TCM, pharmacy of TCM.

Class 5 Chinese medicinal herbs (visiting factory of herbal pieces)

--To learn the basics of Chinese medicinal herbs: the herbs specimens, the process of broiling and decocting for herbs, and so on.

Class 6 The basic theory of acupuncture and moxibustion (lecture)

-- To learn the basic theory of acupuncture and moxibustion: the kind of needles, the kind of needle therapy, acupuncture point location, meridian system.

Class 7 The basic technology of acupuncture and moxibustion (practice)

-- To learn the basic technology of acupuncture and moxibustion, and practice needle by oneself.

Class 8 The therapeutic process of acupuncture and moxibustion (clinical observation)

-- To understand the therapeutic process of acupuncture and moxibustion.

Class 9 The basics of manipulation/tuina, massage (lecture and practice),and The therapeutic process of manipulation/tuina, massage (clinical observation)

-- To learn the basic theory, basic skill, the kinds of manipulation method.

--To learn the kind of manipulation method, and do manipulation with each other.

Class 10 First-aid knowledge in the orthopaedics of traditional Chinese Medicine

--To learn some first-aid knowledge and skills in the domain of the orthopaedics of traditional Chinese Medicine.

Class 11 Yi-Gin-Ching (practice)

-- To learn Healthy Qigong.

Class 12 Answering questions. Final examination.

The design of class discussion or exercise, practice, experience and so on:

Practice: Students may feel and touch real acupuncture tools. After that, they can practice cupping and moxibustion therapies if they want. We make students experience Tuina, and teach the students how to Tuina step-by-step. Students excise the manipulation on each other.

Exercise: We make students master thirteen movements.

If you need a TA, please indicate the assignment of assistant:

Grading & Evaluation:

Attendance	40%
Presentation	20%
Final examination	40%

Attendance

Attendance will account for 40 points.

Presentation

There will be presentations in-class and visiting, which altogether account for 20 points.

Tests

The final exam is an open-book examination. It will be comprised of some choice questions and a short composition that shares the student's thoughts on this course, which altogether account for 40 points.

No make-up exam.

Usage of Textbook: Yes (complete textbook information form below) No

Textbook Information (No more than two textbooks) :
